

3rd June 2026

Dear Parents/Carers,

I hope this letter finds you well. I am writing to you today to inform you of revision sessions that are now available for your young person in the Computer Science Department.

On Thursdays after school (15:20 – 16:20) we are offering a revision session for Creative and Technical Enterprise GCSE. This is to allow your young person to start working with the software that will be used in their upcoming coursework.

The sessions will take place in G105 and will start the week commencing 8th June 2026.

These sessions will return at the same time and same day in September to prepare your young person throughout year 11.

Kind regards,

Mr M Moloney
Head of Computer Science
Head of Creative and Technical Enterprise
Head of Business
