

2nd June 2026

Dear Parent/Carer,

I am delighted to inform you that our Year 10 GCSE Photography students have the exciting opportunity to take part in a photography trip to London on Friday 3rd July.

During the day, students will visit a range of inspiring locations including Brick Lane, the City of London, Borough Market, the South Bank and the Tate Modern, providing them with excellent opportunities to develop their photography skills and gather high-quality images for their GCSE coursework.

As this trip is designed to enhance students' coursework and support their progress in GCSE Photography, students will only be eligible to attend if all coursework set to date has been completed and is up to date. This expectation will help ensure that students are making the most of the opportunities available to them and are fully prepared to benefit from the visit.

Over the coming weeks, I will be reviewing students' coursework progress and will provide support where needed to help them meet this expectation.

Thank you for your continued support. Further details regarding the trip will be shared nearer the time.

Kind regards,

Miss Richards
