Dear Parent/Carer

Re: Disneyland Paris - February 2026

We are going to be running a school trip to Disneyland Paris over a long weekend in February 2026 (their Year 11 year) to attend the annual Computer Science convention they host. It is a fantastic opportunity for our young people to hear about the different journeys people take into the field of Computer Science and understand more about the careers they could consider.

At this point I don't have any specific information for you; I am simply hoping to gain an understanding of numbers so that I can get a quote from the tour company we use, to then be able to come back to you with more details.

As such, please could you email me (m.moloney@passmoresacademy.com) by 4th April 2025 as a registration of interest, you are not committing to anything at this point.

Kind regards,

Mr M Moloney
Head of Computer Science
Passmores Academy
